

HALO

Grab. Place. Pay & Go ➔

AI-powered kiosk for frictionless checkout

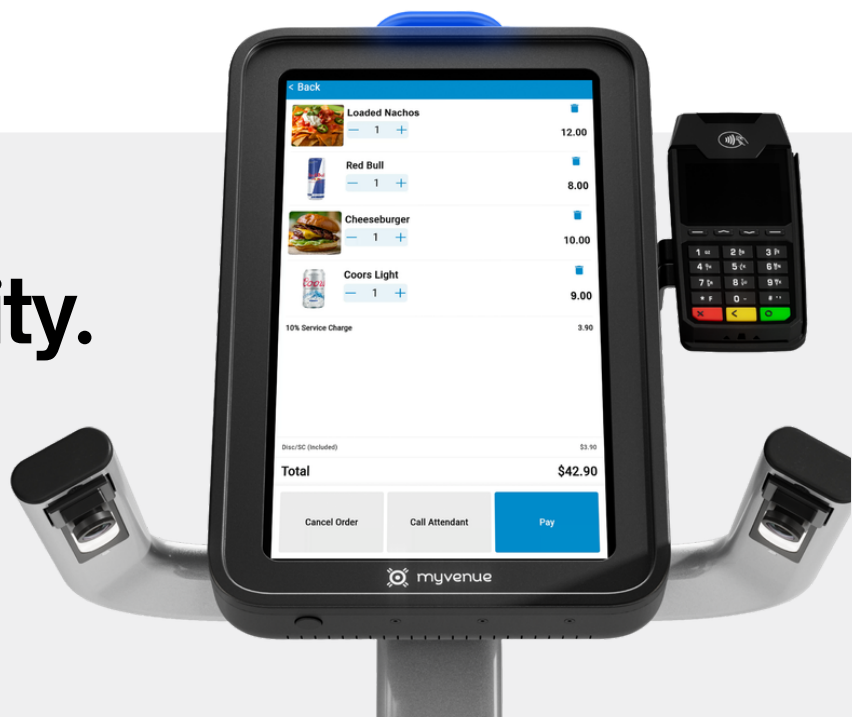

The #1 POS solution just got *faster*

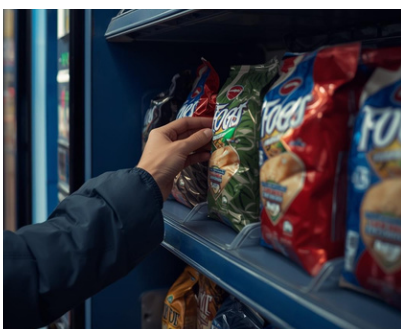

Halo is the frictionless checkout kiosk with **AI product recognition** allowing venues to serve more fans, easier.

More speed, less complexity.

Halo is designed for the toughest challenges in high-volume venues: crowd surges, limited floor space, and rotating menus.

Get fans back to their seats *quicker*

→ **Grab products**

→ **Place on baseplate**

→ **Pay & go**

Designed for event-day performance

COMPACT DESIGN

Space-efficient footprint maximizes operational output.

SHORTER LINES

AI vision automatically detects products in seconds to supercharge transactions.

PAYMENT AGNOSTIC

Supporting a range of gateways, processors, and payment devices.

AI intelligence streamlines compliance and enhances detection accuracy.

Stacked product detection

Multi-angled real-time vision spots obscured products effortlessly.

Alcohol purchase controls

Quantity and age-verification requirements can be configured.

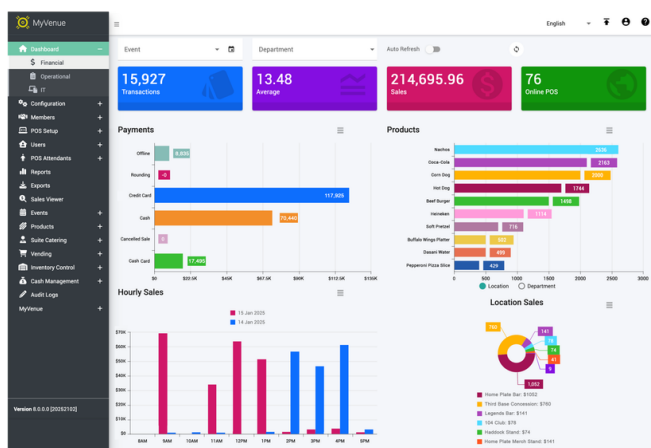

Simple set-up

Scan & register new products in less than 30 seconds.

Product variant intuition

AI processing identifies product packaging & flavour variations.

Centralized data

Dashboards, reports, product listings, and price adjustments are made using MyVenue's real-time and cloud-based back office.
