

# MyVenue Selected To Power POS At ‘One New Zealand Stadium’.

Published April 23, 2026

**CHRISTCHURCH, NEW ZEALAND** -- Venues Ōtautahi – New Zealand’s largest venue, event, and culinary services management company – has deployed MyVenue’s point-of-sale (POS) solution at four venues.

MyVenue now processes POS transactions at 290+ venues across five global markets.

One New Zealand Stadium, which officially opens this weekend hosting the *Super Round* of Super Rugby Pacific, will use 200 MyVenue-powered POS devices to serve fans across concessions, premium clubs, and suite locations.

The fully roofed multi-purpose stadium is home to reigning Super Rugby champions, the Crusaders, and will host a large range of events, including New Zealand All Blacks international rugby fixtures, the Rugby League World Cup, and headline concerts.

A further 100 devices will operate across Wolfbrook Arena, Hagley Oval, and Christchurch Town Hall.

“MyVenue stands out as an industry leader with its fully integrated, highly scalable omnichannel solution,” said Todd Schmidt, Director, Impact and Experience at Venues Ōtautahi. “Their alignment with our long-term strategic direction is strong, particularly their focus on innovating the POS operations to enhance the guest experience that supports our event delivery.”

“MyVenue is proud to partner with Venues Ōtautahi as they open one of the most anticipated stadiums in the Asia-Pacific region,” added Tim Stollznow, CEO of MyVenue. “Expanding into New Zealand is an important milestone in our growth journey, and sees MyVenue add another major league and World Cup host-venue to its global footprint.”

## About Venues Ōtautahi

New Zealand’s largest venue, event, and culinary services management company, responsible for delivering world-class experiences across Christchurch’s premier civic and sporting destinations.

## About MyVenue

MyVenue is an award-winning POS solution for sports, entertainment, and hospitality venues. Its hardware-agnostic POS software supports handheld, tablet, terminal, frictionless, and kiosk devices across concession, premium, hawking, self-service, in-seat, suites, and retail locations. The comprehensive solution also features mobile ordering, suite catering, and a browser-accessed back office featuring real-time dashboards, reports, and inventory control.
